

# DEFOAMING AND ANTI-FOAMING AGENT SPECTRUM X 6L

**SPECTRUM X 6L** is highly effective as an antifoaming and Defoaming agent under different conditions. **SPECTRUM X 6L** exhibits effectiveness over a wide range of pH and controls the various problems associated with the foam produced in different industries.

## CHARACTERISTICS:

Appearance	:	White Paste / Viscous Liquid
Nature	:	Neutral/Mildly Alkaline.
Solubility	:	Miscible with water in all proportions at normal conditions.
Stability	:	Stable for 3 to 6 months depending upon the storage conditions.
Odour	:	Characteristic fatty odour

## MODE OF APPLICATION:

About 5% solution of **SPECTRUM X6L** in water is prepared and incorporated at the point where maximum effect is desired.

## DOSAGE RECOMMENDED:

Variable depending upon the conditions.

## STORAGE:

Store in cool and dry conditions away from direct sun rays and heat, as this may lead to deterioration of Defoamer, **SPECTRUM X 6L**.

## HANDLING:

**SPECTRUM X 6L** is mildly alkaline in nature. In rare cases, it may irritate sensitive parts of the skin. The affected part should be washed with plenty of cold water.

## PACKING:

**SPECTRUM X 6L** is supplied in 50kg HDPE Carboys.
